SECTION 4: First aid measures

4.1. Description of first aid measures

General information:

In case of accident or unwellness, seek medical advice immediately (show directions for use or safety data sheet if possible). Remove victim out of the danger area. Remove contaminated, saturated clothing. If unconscious but breathing normally, place in recovery position and seek medical advice. Never give anything by mouth to an unconscious person or a person with cramps. Do not leave affected person unattended.

Following inhalation:

Provide fresh air.

In case of skin contact:

Take off immediately all contaminated clothing.

After eye contact:

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Following ingestion:

Rinse mouth. Get medical advice/attention if you feel unwell.

Self-protection of the first aider:

Wear personal protection equipment (refer to section 8). No direct artificial respiration to be given by first aider.

4.2. Most important symptoms and effects, both acute and delayed

If exposed to large quantities of the product, acute nicotine poisoning might occur causing symptoms such as nausea, excess salivation, abdominal pain, diarrhoea, sweating, headache, dizziness, disturbed hearing and weakness. In extreme cases, these symptoms may be followed by depression of the central
